Experience

Present Feb 2019	**Senior Android Developer**	**Worldpay**

- At Worldpay I work in 3 projects related to each other: a payment SDK, a wrapper onto the SDK (to make the SDK support multiple payment devices) and a project to convert a smartphone into a Software Card Acceptance Device.
- *Tech Stack: Kotlin, RxJava, MVVM (ViewModel and LiveData), Unit Testing (Mockito and MockK) and Arxan tools*

Jan 2019 Sep 2018	**Android Developer**	**Oraclize**

- Oraclize provides a reliable communication channel between Smart Contracts and the web. For this communication channel, Oraclize provides service on R3 Corda, on EOS and on Android. I'm working on this **AndroidProof** application that implements the **SafetyNet API** provided by Google to ensure that the Android device is not compromised, thereby, safe to use. Another interesting feature we are working on is to get the application to perform Ethereum transactions using the library **web3j**.

Jun 2018 Mar 2018	**Android Developer**	**O2O**

- Development and maintenance of applications such as:
  - Viesgo Solar
  - Gmp Smart
- *Tech Stack: Beacons (AltBeacon library)*

Feb 2018 May 2017	**Android Developer**	**ALTEN**

- Android TV project for **Telefonica** STB composed of a native and HTML platforms
- *Tech Stack: Kotlin language and Leanback library*

Apr 2017 Mar 2017	**Android Developer**	**SDOS**

- Maintenance of AS, EL PAÍS and LOS40 Radio applications
- *Tech Stack: Java*

Feb 2017 Apr 2016	**Android Developer**	**VECTOR ITC GROUP**

- Beauty products purchasing: guapalia
- Mexican travel app: BDExperience
- Travel guide: WeGo
- Application for Vector employees: My Vector
- News feed about Vector ITC Group technology: Radar Tecnológico
- *Tech Stack: Augmented Reality (Vuforia SDK), Real-Time Communications (WebRTC)*

Feb 2016 Nov 2015	**Android Developer Intern**	**WEPLAN**

- Data and voice usage application: Weplan
- Development of new features and fixing bugs
- Testing of app and checking/updating the database
- *Teck Stack: Test Automation (Appium)*

Education

2007 - 2012	**Bachelor's Degree in Communication System Engineering**

CARLOS III UNIVERSITY OF MADRID, Spain

- (absence of Degree Project)
